Availability guarantee

from moll Funktionsmöbel GmbH, 73344 Gruibingen, Germany (Status 04/2019)

Guarantee services

We supply product enhancements at the current list price for all desks which were part of the moll range at the time of purchase. These additions are made either in the same or in a similar top decor as the desk. We reserve the right to modify models and designs at any time.

We reserve the right to deviate the decor and colour of the item of furniture to be delivered from that of the originally purchased table, as far as these lie in the nature of the used solid woods or veneers and are usual in trade. Warranty or guarantee claims cannot be made by the buyer due to such deviations.

Containers, shelves, electrical items and chairs are generally excluded from the availability guarantee.

Also excluded from the warranty are limited editions, special ranges or other products not listed in our catalogue or on our website.

Period of the guarantee

The period of the guarantee shall commence with the purchase of the desk from an authorised moll specialist dealer and shall run for five years. The date of invoice from the dealer to the consumer is decisive for the beginning of the warranty period.

Regardless of this date, the period of the guarantee shall end no later than five years after production of the desk model has been ceased.

The period of the guarantee is not extended when a guarantee claim is made, nor is it extended when services are performed under the guarantee.
